Ezy-Wash® Hob Mounted Pre-Rinse Unit with Dual Mixer Assembly

Specification Data Sheet

Features

- Support spring in chrome plated steel allows the trigger hose to be pulled into the spraying position and returned back to the washing area when released.
- Stylish pin flick mixer that is compact and easy to use.
- Easy to assemble and adjustable wall bracket.
- Flexible hose TPU inner.
- Main riser pipe in stainless steel, and designed for quick and easy installation.
- Chrome plated finish for easy cleaning and added durability.

To Specify

Pre-rinse units are vital in commercial kitchen restaurants, as many pots are much too large to fit in even the largest of commercial dishwashers. Our range of Ezy-Wash[®] Pre-Rinse units are designed to clear excess food debris and sauces off of dishes before placing them in your commercial dish washing machine, and an ergonomic trigger handle allows easy and intuitive use.

Code:

TF150HMS - Ezy-Wash[®] CP-BS Hob Mtd Single Lever Mixer Pre-Rinse Unit Type 150 Flex Tail.

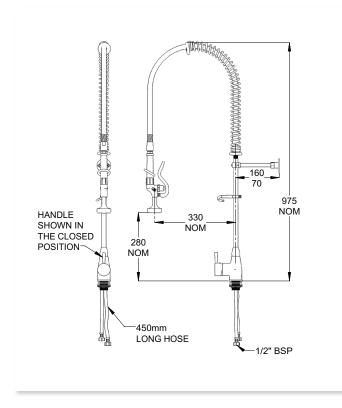

Performance Standards & Approvals

- AS/NZS 3718 WaterMark

- Working Pressure Range (kPa): 100 Min 500 Max
- Maximum Working Temperature (°C): 5 Min 90 Max
- Nominal Flow Rate: 3.5
- Construction: Brass
- Finish: Chrome

Maintenance & Cleaning

Galvin Specialised products should be cleaned with a soft damp cloth using only mild liquid detergent or soap and water. Do not use cleaning agents containing a corrosive acid, scouring agent or solvents. Do not use cream cleaners, as they are abrasive. Use of unsuitable cleaning agents may damage the surface. Any damage caused in this way will not be covered by warranty.

Regular maintenance should be carried out in accordance with the installation and troubleshooting guides provided with the product, relevant Australian Standards, local authorities and state codes.

As part of maintaining a safe and reliable plumbing system, we recommend tapware and valves are operated on at least a daily basis.

Warranty

Galvin Specialised products are covered under our Manufacturer's Warranty at www.galvinengineering. com.au. Galvin Specialised products must be installed in accordance with the installation instructions and in accordance with AS3500 and the PCA, relevant Australian Standards and local authorities applicable to product being installed. Water and electrical supply conditions must also comply to the applicable national and/or state standards, failing to comply with these provisions may void the product warranty and affect performance of the product.

Whilst all reasonable care has been taken in compiling the information in this document, the designs, dimensions and products shown are indicative only and should not be relied upon without our prior approval. Due to our policy of continuous development, we reserve the right to alter any details of specifications or products without notice.
