

TOILET AND URINAL CLEANSER & DRAIN CONTROL

Description:

Ultra-strength acid detergent removes and dissolves build-ups like lime, organic incrustations, hard water, rust stains, and scale from toilets, urinals, and drain lines. Fortified with Acrylic Polymer Technology that protects surfaces and prevents soil build-up. Safe on brass, chrome, fiberglass, glass, ceramic, tile, plastic, porcelain, and stainless steel.

Benefits:

- Brightens and destains
- Restores flow to slow drains
- Destroys uric acid salt build-ups
- Fast-acting -- contains 20% hydrochloric acid
- Lemon scented -- one step cleaning and deodorizing
- Added detergents provide cling time on vertical surfaces

Safe for use on:

Brass, chrome, fiberglass, glass, ceramic tile, plastic, porcelain, & stainless steel

Application:

DRAIN OPENING AND MAINTENANCE: Pour 200mls of BOWL GUARD into drain line and allow to set for two to three minutes before flushing. Regular use of BOWL GUARD will continue to restore flow and prevent the build-ups that impede flow.

TOILET BOWL CLEANING: Flush bowl, then remove the water by forcing it over the trap with a toilet bowl mop. Remove remaining water with sponge swab. Squeeze excess water out of toilet bowl mop or swab. Hold the toilet bowl mop over the bowl and pour 200-300mls of BOWL GUARD on the mop, then thoroughly clean the entire toilet bowl, getting up into the traps as far as possible, around the inside and particularly up under the inside rim. Flush toilet and rinse mop.

URINAL CLEANING: To clean the urinal, saturate a toilet mop or swab with BOWL GUARD. Thoroughly clean the urinal, paying particular attention to the water outlets at the tops as well as grooves down along the sides. After cleaning the upper surface, remove the screen from the drain outlet at the bottom and pour 200-300mls of BOWL GUARD into the drain pipe and around the edges.

Specifications:

pH.....	<1
Density @ 25°C (ASTM-D-287)	1.110 g/mL
Color	Opaque light pink
Appearance.....	Clear liquid
Odour	Lemon fragrance
Health/Flammability/Reactivity.....	3/0/0
Personal Protection	safety glasses and gloves
